

RUN THE WALL · FREE & OPEN SOURCE

IT PRINTS.

Your **HZD950-PRO** label printer now speaks
Linux / Raspberry Pi — on a free, open-source CUPS driver.

...AND WE BUILT IT FREE TO INTRODUCE YOU TO

q3-launch-plan.md

Markdown that becomes the page|

Write ****bold**** and the asterisks melt away the moment your cursor leaves.

- ☒ renders live, no flicker
- ☐ never rewrites a byte you didn't touch

Constly — the WinRAR of Markdown. A gorgeous WYSIWYG editor for Mac that renders as you type. Every feature free.

\$19.99 when your conscience kicks in. One-time, no subscription.
